

**INTERNATIONAL  
SYMPOSIUM ON** 2022  
**ARTIFICIAL INTELLIGENCE  
AND MACHINE LEARNING** 2022  
#AI4ALL

# International Symposium on Artificial Intelligence and Machine Learning - 2022

**21st & 22nd September 2022**

## SPEAKER PROFILE

### **Dr. Suresh Sundaram**

**Associate Professor**  
**Indian Institute of Science, Bangalore**

- Dr. Suresh Sundaram is an associate professor in the Department of Aerospace Engineering, Indian Institute of Science, Bangalore, India, since 2018 and associated faculty in Robert Bosch Center for Cyber-Physical Systems.
- He leads the WIPRO-IISc joint research initiative on Artificial Intelligence-driven Autonomous System and leads the research initiative in an autonomous vehicle in ARTPARK. Earlier, he served as a cluster director in Energy Research Institute @ Nanyang Technical University (NTU), Singapore and deputy director at Robotics Research Center, NTU.
- He is an associate editor in IEEE Transactions on Neural Networks and Learning System, Swarm and Evolutionary Computing and Evolving System. He has been listed in Top 2% scientists who changed the world in robotics and AI.
- He has published more than 300 articles and a monograph, and his citation index is 45. His research interest includes intelligent flight control, autonomous system, applied game theory, and artificial intelligence.
