

**INTERNATIONAL  
SYMPOSIUM ON  
ARTIFICIAL INTELLIGENCE  
AND MACHINE LEARNING 2022**  
#AI4ALL

# International Symposium on Artificial Intelligence and Machine Learning - 2022

**21st & 22nd September 2022**

## SPEAKER PROFILE

### **Ms. Madhu Raut**

**Intern**

**Rolls-Royce R2 Factory, London, UK**

- Hackathons are where the ideas meet reality. Internships let us dip our toes in the industrial waters.
- In today's Age of Artificial Intelligence, the young researchers are the frontliners. Hackathons, internships and AI/ML are more than just floating buzzwords in the Digital Space; they constitute the industrial ladder for today's youth.
- We have amongst us, one such young researcher, who will be connecting the dots by sharing her firsthand experience.
- Madhu Raut, a Masters in Artificial Intelligence student from City, University of London, is the Winner of Smart India Hackathon 2020, Runner-Up of ASEAN India Hackathon 2021, Former Intern at National Technical Research Organization, and Current Intern at Rolls-Royce R2 Factory.
- Today, Madhu is here to deliver a talk on "A Young Researcher's Guide to Applied AI"
